EDUCATION

- Rungta College of Engineering and Technology** Bhilai, Chhattisgarh
 - Bachelor of Technology (B.Tech) – Computer Science Engineering (AI & ML) CGPA: 8.0*

SKILLS SUMMARY

- Languages:** Java, SQL
- Frameworks & Technologies:** Spring Boot, Spring MVC, Hibernate, JPA, Maven
- Databases:** MySQL, MongoDB
- Developer Tools:** Git, GitHub, Postman, IntelliJ IDEA, Eclipse, VS Code
- Cloud:** AWS (EC2, S3, Lambda), RESTful APIs, JWT Authentication
- Core CS:** Data Structures & Algorithms, Object-Oriented Programming (Java), DBMS, Operating Systems, Computer Networks
- Software Engineering:** Debugging, API Development, Unit Testing, Version Control (Git), Agile Development, Performance Optimization
- Soft Skills:** Problem Solving, Analytical Thinking, Team Collaboration, Communication, Adaptability

EXPERIENCE

- TheBlackThreat** *Dec 2023 – Jun 2024*
Full Stack Developer Intern

- Developed responsive full-stack web applications using React.js, Node.js, Express.js, MongoDB, and Tailwind CSS, improving application performance and user experience.
- Designed and implemented secure RESTful APIs, integrated JWT authentication, and optimized backend services for scalable client-server communication.
- Debugged software defects, optimized backend logic and database queries, reducing response time and improving overall system reliability.
- Collaborated with cross-functional teams using Git and GitHub, participated in code reviews, and followed Agile software development practices.

PROJECTS

- Library Management System** *Java, JDBC, MySQL*

- Developed a Java desktop application using Object-Oriented Programming principles to automate library management operations.
- Implemented CRUD functionality for books, members, issue/return transactions, and fine management using Java and JDBC.
- Integrated MySQL database using JDBC with optimized SQL queries for faster retrieval and updates.
- Applied exception handling, input validation, modular programming, and reusable class design to improve software quality.
- Designed an intuitive user interface for efficient book search, inventory management, and report generation.

- Student Management System** *Java, Swing, JDBC, MySQL*

- Designed and developed a Java Swing application to efficiently manage student records and academic information.
- Implemented secure login authentication, student registration, profile updates, search functionality, and report generation modules.
- Connected the application with MySQL using JDBC to perform efficient database transactions and CRUD operations.
- Applied Object-Oriented Programming concepts, exception handling, and modular architecture to enhance maintainability and scalability.
- Optimized database queries and incorporated input validation to improve application performance and ensure data integrity.

HONORS & ACHIEVEMENTS

- Winner – Ranchi Hacks National Level Hackathon (2026) for developing **Nagar Alert Hub**
- Finalist – MLH Hackathon, Thapar Institute of Engineering & Technology (2025).
- Finalist – National Hackathon, CMR College of Engineering & Technology, Hyderabad (2025).
- Secured 2nd Place in Vyom Frontend Hackathon 2024 among 60+ participating teams by developing a responsive e-commerce web application.
